A photograph of a dimly lit cocktail bar. The background features a large, textured wall made of stacked wooden barrels. In the foreground, a dark wooden bar counter is visible, with a small lit candle on it. The lighting is warm and moody, with several pendant lights hanging from the ceiling. A large, abstract painting hangs on the wall above the bar.

## Who invented the Espresso Martini?

The honour of this goes to British bartending guru Dick Bradsell. He's credited with revolutionizing the cocktail scene in London in the 1980s.

The story goes that Bradsell created the drink after a young model, who Bradsell claims is now world famous, sidled up to the bar and asked for something to "wake me up and f\*\*k me up". His solution was a combination of vodka, fresh espresso, coffee liqueur and sugar, shaken into a frothy mix of addiction.

## Why do we garnish an Espresso Martini with 3 coffee beans?

This is the cocktail's trademark and are said to represent health, wealth and happiness.
